Education

2015 – current	**University of Queensland** Bachelor of Mathematics and Science (Computer Science) GPA: 6.75

Awards

2016   **Dean's Commendation for Academic Excellence**
- Dean's Commendations for Academic Excellence recognize students enrolled in undergraduate, postgraduate coursework and postgraduate honors programs who have excelled academically and who have shown a strong commitment to their study.

2015   **Dean's Commendation for Academic Excellence**
- Dean's Commendations for Academic Excellence recognize students enrolled in undergraduate, postgraduate coursework and postgraduate honors programs who have excelled academically and who have shown a strong commitment to their study.

2015   **People's Choice Award at the annual University of Queensland Computing Society Hackathon**
- Developed a platform for students with entrepreneurial ambitions to find technically inclined co-founders with a front-end in Javascript, HTML and CSS and backend built with PHP.

Community Leadership

2016   **Code Dojo Programming Mentor**
- Taught children aged 10-12 programming at CoderDojo, focusing on building Minecraft mods in Python. While there, I introduced the idea of using a standard machine image that can be deployed fully configured onto a machine to save set-up time which will save future teams many hours setting up everyone's computer, and helped implement it using Vagrant.

2016   **Volunteer at the World Science Festival**
